ROOSEVELT'S APPROVAL

"The position that I have taken and now take, had his full approval. The line I have followed in the Senate and eisewhere was the one he wished to have followed. I do not say this to transfer any responsibility from my shoulders to his. All I do and all I say is on my own responsibility alone.

"The question before us," said Senator Lodge, "the only question of a practical nature, is whether the league that has been drafted by the commission of the peace conference and laid before it will tend to secure the peace of the world as it stands, and whether it is just and fair to the United States."

In answer to the charge there had been no constructive criticism of the league, Senator Lodge exclaimed:

"My first constructive criticism is that this covenant ought to be redrafted." This is essential, he added, above all else.

As another constructive criticism he demanded a definite statement in the covenant of the vote required in the executive council for it to "recommend" or "advise" or "propose" as the

"I offer an amendment to exclude questions affecting immigration and the tariff from the purview of the league as a fourth constructive criticism."

As another constructive criticism, he called for a provision permitting withdrawal from the league to make unnecessary denunciation or abrogation of the treaty.

In concluding his opening argument, senator Lodge referred to the provision for mandatories, with its failure to state "who will select them" for the nations.

"The final reading of the British draft convention for the establishment of a permanent organization for international labor legislation was completed, and the draft convention as amended was adopted by the commission for submission to the peace conference.

"The commission then continued the discussion of the labor clauses to be recommended for inclusion in the treaty of peace."

SAME CHARGE TO BE MADE

Capital Talk Indicates That Cost to Germany Will Be Advanced to \$10,000 Each.

WASHINGTON, March 19.—Germany is to be charged the same amount for each and every individual victim of the Lustiania tragedy, it was announced today at the State Department.

After a long controversy, which began when Count Bernstorff, the late German ambassador, tried to compromise on \$5,000 per head, the government has decided that it would be no respector of persons. As a result, the heirs of Alfred Vanderbilt, Charles Frohman and other well-known and very prominent people will get no more indemnity than the humblest and youngest victim of the disaster.

The United States, however, raised the individual indemnity above \$5,000, but how much more is not disclosed here. It is stated the amount may be fixed at \$10,000 per head. This would make the sum total about \$1,250,000.

The total for the Lustiania is included in the general total of \$750,000,000 filed against Germany, as announced recently by the State Department.

SHOE WORKERS ON STRIKE

Ten Big Plants in Chicago Are Idle and Thousands Are Out of Work.

CHICAGO. March 19.—Move than 12.000 shoe workers employed in ten of Chicago's largest manufacturing plants went on strike today, following failure on the part of the representatives of the United States Department of Labor to settle differences between the workers and manufacturers over a forty-four-hour working week.

The strikers are members of the United Shoe Workers of North America. The strike became effective at 2 o'clock this afternoon, and almost immediately the ten big plants were practically idle, and thousands of men and women, not affiliated with the strikers, were compelled to cease work. Most of the strikers are cutters.

END OF GALICIAN WAR Buy Coal Early, Advice of Fuel Administration

WASHINGTON. March 10.—Early buying for next winter's supply of coal was urged upon the public by the fuel administration in a statement issued tonight. The administration asserted that coal was now more plentiful than it probably would be for some time to come, in view of anticipated heavy coal exportations, and the public would have no better opportunity to place orders than at present.

The importance of stimulating production, which in February was 48 per cent less than full-time production, also was emphasized. Current consumption from stores of coal, it was said, is greatly in excess of production, which has fallen off, due to lack of orders.

IN COMPLETE AGREEMENT
The commission on international labor legislation held probably its last meeting today, when it reached an agreement on all points at issue. The American contention that each country should settle its internal labor problems without invoking the power of the league of nations prevailed.

Inclusion of the league of nations covenant in the preliminary peach treaty will not delay the signing of the treaty which, it is hoped, will be accomplished within two weeks, said Lord Robert Cecil, of Great Britain, talking to British and American newspaper correspondents. He said three amendments to the covenant had been submitted but added he was "sure there will be no difficulty in meeting all legitimate objections."
